ASSOCIATE DEGREE

Introduction

Allison Transmission, a member of the General Motors (GM) family for more than 50 years, has played a major role in the advances that marked the 20th century as a revolutionary period in transportation and mobility. With roots dating back to the formation of the Indianapolis Speedway Team Company in 1915, they have led the way in developing a range of innovative products that have greatly advanced the state of ground and air mobility.

With its rich legacy of technological innovation, product quality and employee dedication, they have been a world leader throughout their more than 85 year history.

Purpose

The primary purpose of this agreement is to facilitate the transfer of equivalent credits from Allison Transmission to an Associate degree program at CCBC. CCBC is committed to assisting students/employees of Allison Transmission (GM Powertrain) in obtaining an Associate degree.

Admissions Statement and Credit Transfer

After exploring a variety of options, we believe the best approach is to offer individuals from this group who wish to pursue their degree a “two-for-one” deal. The successful completion of coursework, for which their training could be considered prerequisite, would result in the awarding of credit for both the completed coursework and its prerequisite (at no additional charge to the student).

If a student participating in this agreement does not successfully complete the credit course, they would not get credit for either the course for which they registered and paid or the associated prerequisite.

Financial Aid/Scholarships

General Motors contributes funding to various organizations that provide scholarship support. There are a wide variety of scholarship programs available to Allison students/employees.

- American Indian Science and Engineering Society (AISES)
- Chevrolet Excellence in Education Award
- National FFA Organization
- General Motors Minority Dealers Association Scholarship Program (GMMDA)
- General Motors Minority Engineering and Science Scholarship (MES)
- GM African Ancestry Network Scholarship Program
- GM/Greater Baltimore Urban League Automotive Service Educational Scholarship Program
- GM/National Council of La Raza Automotive Service Educational Scholarship Program
- Hispanic Scholarship Fund
- INROADS, Inc.
- LULAC National Education Service Centers (LNESC)
- Minority Engineering and Science Scholarships
- National Action Council for Minorities in Engineering (NACME)
- National Black MBA Association (NMBBAA)
- National Society of Black Engineers (NSBE)
- Society for Hispanic Professional Engineers (SHPE)
- Society of Women Engineers (SWE)
- Sullivan Fellowship Program – UNCF
