

Course Outline
MCOM 271-273
Internship: Mass Communication
1-3 Semester Hours

The Community College of Baltimore County

Description

Internship in Mass Communication

Provides practical experience in a work environment for the advanced student in Mass Communication. Includes work experiences in business, industry, educational institutions, social services organizations, or other agencies involved in the appropriate mass communications activity. Requires supervision by an appropriate advisor during the internship, establishment of learning objectives, and a journal documenting the completion of the learning objectives.

1-3 credits; 3-18 laboratory hours per week. Prerequisite: Six credits in the major area and permission of program coordinator.

Overall Course Objectives
