### Why did you decide to become an FYE Mentor?

My major is education, so I love to see others succeed in their goals that they set for themselves. Also being involved and having an influence on others can be really rewarding. I was just going through my old CCBC e-mails, and I saw an e-mail from Lorrie when I was a new student extending the opportunity for new student orientation (what a missed opportunity!). Before I became a FYE Mentor, I had some interaction with other mentors and the energy I received from them was always positive.
