Interesting Facts

- I love mangoes.
- English is not my first language.
- I am an Aquarius.
- I have a scar on my kneecap from when I fell off a bicycle.
- I am not a good cook.

What has helped you succeed so far at CCBC?

The support of my friends and professors through the semester. My friends have helped me with my studies for when I have a question about a specific topic. They have been supportive through the good and bad times. The Honors Program has helped me greatly with their facilities and the presence of many intelligent students.

Why did you decide to become an FYE Mentor?

I wanted to be a part of a bigger community and help new incoming students receive the best experience that they can. I wanted to get out of my bubble and challenge myself to new things.
