Program Cost

CCBC Student Engagement's First-Year Experience Program aims to financially support students in the Summer Bridge Program by sponsoring their tuition, fees, and book for the ACDV 101 course and by covering the cost of the associated co-curricular experiences. Therefore, Summer Bridge students are expected to participate in all remote class meetings and all online and remote out-of-classroom experiences. They are also expected to complete their ACDV 101 course with a passing grade. If students do not meet these expectations, they will be responsible for their ACDV 101 course tuition and fees.

Virtual Engagement

Please know that our program requires active participation and discussion. Therefore, a high level of virtual engagement is expected. During class meetings and workshops, students are expected to use cameras and microphones to actively participate. To be held accountable and fulfill participation as it relates to the program cost, students need to be seen and heard as active in sessions. When expected to be present in class meetings and workshops, students are not permitted to multi-task (such as work a job or complete course assignments – unless your instructor has scheduled class time for the completion of assignments).
