Due to the rigor and time requirements of the respiratory therapy courses, it is highly recommended that all general education and program requirements be completed before beginning the program. Of the courses listed below, the more courses that a student completes with grades showing mastery, the better the student's chances of admission into the program. All courses must be completed with a C or better. Please refer to the suggested semester sequence at https://www.ccbcmd.edu/Programs-and-Courses-Finder/Program/respiratory-caretherapist.

- ENGL 102

Minimum Admission Criteria

- Applicants must have a minimum grade of C or better in the required prerequisite, general education, and program courses required for the program.

- Applicants either must be in progress with or have completed required prerequisite courses by the application deadline.

- Applicants must have an overall GPA of 2.5 for all program requirements, general education courses, electives and prerequisites.

- Applicants must have a minimum CCBC GPA of 2.0 for any courses completed at CCBC.

- Grade of C or better in all pre-requisites and General Education courses.

- Signed Technical Standards form

- The CCBC School of Health Professions, Respiratory Therapy program has a minimum age requirement of 18 years old to enroll in the program starting with RESP 102. RESP 101 is a prerequisite that may be taken before the student is 18. These restrictions are in line with state laws and accreditation standards, which are determined independently from CCBC's control. We place high importance on adhering to these regulations to guarantee the excellence and reliability of our programs.

Prior to application review, official transcripts from all colleges (except CCBC) must be evaluated by the CCBC Registrar's Office for transfer of credit. Only courses that transfer into CCBC will be considered for admission. Review the "Transfer to CCBC" webpage at: https://www.ccbcmd.edu/Get-Started/Take-classes/Take-a-credit-class/Transferto-CCBC-from-another-college.aspx . It is strongly recommended that SHP applicants speak specifically with a Health Professions Pathways Advisor early in the application process to review courses required

for admission and graduation. If you are submitting transcripts to transfer to CCBC, complete the Transcript Evaluation Request form. It is found at the link above, in the 'Next Steps' drop-down menu.

Application to the School of Health Professions (SHP) is a separate and competitive process from admission to CCBC. CCBC uses an outside vendor to manage the applications in the School of Health Professions Central Application Service (SHP CAS). The SHP CAS and CCBC are separate systems and do not share information. You must submit two applications and sets of transcripts, one to CCBC and one to SHP CAS. Send inquiries to shpseat@ccbcmd.edu.

The Respiratory Care Therapy program is selective and competitive. Highly qualified applicants who meet the minimum admission requirements may be invited for an interview. Applicants who have completed all or most of the general education courses will be more competitive.

Applicants who are already certified as polysomnographic (sleep) technologists and who completed a CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program may be given additional admission consideration. You will have an opportunity to upload a copy of your certificate in the SHP CAS application.

Transfer of Credit

All applicants who are transferring to CCBC are encouraged to review their DegreeWorks audit for transferred credit with a Health Profession Pathways Academic Advisor, after submission of transcripts and the Transcript Evaluation Request form. https://www.ccbcmd.edu/Admission-and-Registration/Get-Started/Transfer-Credit/pages/Transfer-to-CCBC.html.

As all respiratory therapy programs have unique sequencing of content offered in each ours, credit will not be given for any respiratory therapy courses completed in another program. All respiratory therapy courses (RESP) must be taken at CCBC.
