DON'T LET YOUR ACCOMPLISHMENTS GO UNNOTICED

Experience matters whether on the job, in service or as a result of prior learning.

You can gain recognition for your "know-how" at CCBC. An assessment of your valuable life experience can save you time ... and money. Connect with one of our program coordinators for an assessment and see if you can enter one of our degree or workforce programs ahead of the game.

Prior Learning Assessment (PLA) is conducted through a customized, one-on-one evaluation process and can be measured in a number of different ways.

- Portfolio assessment
- High school and/or college classes
- CCBC departmental exams
- Industry/apprenticeship
- Work experience
- Military experience

PREREQUISITES FOR HEALTH AND HUMAN SERVICES

The Health and Human Services area offers a variety of training programs that range in length from 3-15 months.

Certain Continuing Education certifications in Health and Human Services career training require one or more prerequisite courses as a foundation for further study. Some also require a clinical placement for completion; some have a learning component. All students must be computer literate and have Internet access.

In addition, we offer stand-alone courses including: CPR for Health Care Providers, Medical Terminology, Anatomy and Physiology, Basic Math for the Health Care Worker, Essential Skills for the Health Care Worker (career prep course), Child Care Credential Booster classes, and challenge exams for those wishing to test out of select courses.

COVID-19 Policy

CCBC has mandated a COVID-19 vaccination for health students participating in clinicals or labs involving patient care. Upon entry to the program, students must provide evidence of being fully vaccinated to their program director.

Fully vaccinated is defined as:

- 14 days after receiving both doses of a two-dose COVID-19 vaccine - or -
- 14 days after the single-dose vaccine for COVID-19

Submit exemption requests for medical/religious reasons to the Dean of Continuing Education at lslezak@ccbcmd.edu.

A COVID-19 vaccination is encouraged, but **not required** for students enrolled in the following allied health programs:

- Child Care Provider
- Medical Front Office
- Medical Billing
- Medical Coding

WORKFORCE TRAINING CERTIFICATE****CNC MACHINE TOOL TRAINING****PELL FUNDING AVAILABLE:**

Learn more at Online.fafsa.edu/gov

Learn both manual and computer numerical control (CNC) machine tool technology with extensive hands-on and computer-based training at the CCBC Catonsville machine shop in this seven-part series. Start with essential workplace literacy skills in computers, plus work habits, and work ethics. Foundational topics of safety, blueprint reading, and trade math follow. Includes modules in quality and resume skills. Train three days a week, 8am-3:30pm, M/W/F. Finish in approximately 9 months.

Tuition and fees for the seven parts is \$7,499 for in-county students (includes all text and supplies). Students can demonstrate proficiency through five certifications from the National Institute of Metalworking Skills (NIMS). Completers can apply for entry-level employment and, once established, enter a machinist apprenticeship.

Begin classes in Sept 2024

Applicants must attend an information session.

INDUSTRIAL MAINTENANCE

Industrial Maintenance Technicians require knowledge in a broad array of disciplines including mechanical, electrical, hydraulics, pneumatics and computer controls and must understand and implement safe work practices in all aspects of their work. CCBC offers classes to help you gain those skills.

For more information, contact Steve Ricketts
at 443-840-4442 or sricketts@ccbcmd.edu

VOA 444

Basic Hydraulic/Pneumatic Systems I

Learn the physics of hydraulics and pneumatics, including the concepts of pressure and force, resistance to flow and the measurement of air and fluid flow, and the properties of flow in closed systems along with the use of valves to control flow. You will also be introduced to basic symbols needed to read and interpret hydraulic/pneumatic systems from blueprints.

Total Cost: \$779 (Tuition: \$234 Fees: \$545)

FAB LAB TECHNOLOGY (DESIGN & MAKE)

CONTINUING EDUCATION WORKFORCE TRAINING CERTIFICATE

FAB LAB TECHNOLOGY (DESIGN & MAKE)

At the CCBC Catonsville Fabrication Laboratory or Fab Lab (also known as Fab Lab Baltimore), use a 3D printer, laser cutter/engraver, vinyl cutter, CNC router and other equipment.

To use the Fab Lab you must first take Fab Lab Introduction to learn basic safety and operating procedures. This introductory class makes you a lab member and gives you access to many of the lab resources. Most of the additional and machine-specific classes include design "how to's", so no design experience is needed.

For more information, contact Denise Bellamy
at 443-840-4712 or dbellamy@ccbcmd.edu

PCA 816**3D Printing with Fusion 360**

Go from design to creation with Fusion 360 software. This cloud-based tool combines design, modeling, and preparation for manufacturing into one comprehensive package. Learn to use the basic tools in the software to design and 3D print.

Total Cost: \$159 (Tuition: \$48 Fees: \$111)

HIT 873**Atoms from Ancient Times to the 21st Century**

What is the nature of matter around us? Philosophers and scientists have tried to answer this question for thousands of years. Incredibly, just by thinking about this question, ancient Greeks were the first to declare that all matter consists of tiny invisible particles called atoms. Almost two thousand years later new methods and instruments were developed and to the surprise and disbelief of many, scientists could prove that this ancient Greek theory was indeed correct. By the 20th century atoms became a fundamental notion of all Sciences and led to important discoveries and technological advances such as nuclear power and medical imaging. This course traces the history of this development mostly through biographies of the philosophers and scientists who made it happen. Instructor: Greg Pevzner

BASIC EDUCATION & ENGLISH LANGUAGE SERVICES

HIGH SCHOOL DIPLOMA OPTIONS

Students have two options for completing their high school equivalency. Upon registration and completion of an onsite assessment, it will be determined which option is best for you. The two options are:

- **GED® Test** – Students take classes at CCBC to prepare to take the GED®, the high school equivalency test.
- **National External Diploma Program® (NEDP)** – Maryland state-approved method to earn a high school diploma. NEDP® is designed as a confidential, self-paced program for adults that takes between 6 and 15 months to complete. There is no instruction, but there is ongoing guidance and support through weekly appointments with trained CCBC staff. All work is completed through online assignments.

In person and remote learning options available.

Getting Started:

1) Schedule Appointments for Assessment and Registration.

- Call 443-840-3456 or scan the QR code to schedule an appointment for an assessment session

2) Attend Assessment Appointment.

- Arrive on time for the scheduled appointment. No one will be admitted to the assessment without an appointment or after testing has begun.
- Take reading and math assessments and view diploma options presentation. Receive orientation and registration dates.

3) Return for Scheduled Orientation and Registration.

- Learn more about program details, class sequence and student expectations.
- Meet with a CCBC advisor who will register you for a GED-prep class based on your assessment results and demonstrated skills level, or refer you to the National External Diploma Program (NEDP).
- Although these options are grant-funded, some fees may apply. You will be advised of any additional costs before placement.

Important Notes

- Students must be at least 18 years of age to enroll. Students under 19 must provide a copy of official withdrawal papers from the last school attended. No copies can be made at appointments.
- Please do not bring children with you to intake appointments
- Reasonable accommodations for disability are available upon request. Please call 443-840-3428 to discuss availability.
