

Common Course Outline
ASLS 214
Advanced Conversational ASL
4 Credits

Community College of Baltimore County

Description

ASLS 214 – Advanced Conversational ASL provides students with instruction in advanced grammatical features of American Sign Language (ASL). Students examine and practice basic syntactic rules for ASL and explore how the structure of ASL may be altered in different registers. Students work to increase both receptive and expressive skills while expanding their vocabulary and linguistic knowledge of ASL.

4 Credits

Prerequisites: ASLS 204 or permission of the program coordinator

Overall Course Objectives

Upon completion of this course students will be able to:

1. analyze the formal features of ASL discourse;
2. demonstrate the alteration of grammatical structure of ASL in different registers;
3. demonstrate expanded ASL vocabulary and language skills;
4. identify and demonstrate usage of ASL classifiers;
5. identify and demonstrate use of constructed action and constructed dialogue in ASL;
6. formulate a variety of ASL common sentence structures;
7. recognize and demonstrate use of non-manual features of ASL;
8. utilize clarification strategies when communicating in ASL;
9. analyze and demonstrate use of the different verb types in ASL;
10. describe how different ASL verb types influence syntax;
11. execute spontaneously communication using ASL on a variety of topics;
12. produce use of referencing conceptual space;
13. describe how visualization impacts the overall grammatical structure of ASL;
14. evaluate how figure /ground constructions impact ASL grammar;
15. demonstrate use of perspective shift in ASL narratives; and
16. demonstrate ASL adverbial constructions.
