

**Course Outline**  
**CADD 191-194**  
**Special Topics in Computer-Aided Design**  
**1-6 semester hours**

**The Community College of Baltimore County**

**Description**

Special Topics in Computer-Aided Design

Provides opportunity to explore subjects outside the traditional areas of Computer-Aided Design; includes topics of importance to individuals in the Computer-Aided Design field that are not addressed in other CAD courses. Students should consult with an advisor or program coordinator to determine transferability and/or applicability to curriculum requirements. Information is available through the Applied Technology Division office and Counseling Center. 1-6 credits; 0-6 lecture hours and 0-12 laboratory hours per week. Prerequisites (if any) will be determined for each course.

**Overall Course Objectives**

The objectives of this course will be dependent upon the specific course being offered.

**Major Topics**

To be determined.

**Course Requirements**

To be determined.

**Other Course Information**

To be determined.
