

Common Course Outline
DIGM 153
Video Editing and Media Management
3 Credits

Community College of Baltimore County

Description

DIGM 153 – Video Editing and Media Management teaches editing techniques, skills, and principles to demonstrate the storytelling power of editing. Students use editing techniques to edit footage from media shot during their digital media production courses. Students edit their projects to include video, effects, titles, music, and diegetic sound. Students work on a group project journaling their experience.

3 Credits

Prerequisite: DIGM 151 or DIGM 152

Overall Course Objectives

Upon successful completion of this course, students will be able to:

1. analyze script, shotlist and storyboard for audience and social cues;
