### What has helped you succeed so far at CCBC?

Definitely certain staff members at CCBC helped me succeed so far. This school has many professors that actually care and want to help you succeed and see you grow. I definitely have a lot of support here on campus and off campus. My biggest support system is my family. Also, having friends and other people around you with positive vibes who always motivate you to do great things and push you beyond your limits also helps you be successful.

### Why did you decide to become an FYE Mentor?

I decided to become a mentor because I wanted to help students who were just like me when I first started at ccbc. Also, because I wasn't involved in anything here on campus and I got tired of doing the same routine everyday which was go to class and go home. Becoming a mentor definitely helped me come out of my shell a little bit more. I am more comfortable then what I was when I first started here at ccbc. Another good thing about being a mentor is meeting so many great people who you build a great connection with and long lasting friendships.
